

Ioanna Falega

Ioanna Falega, Psychologist of AUTH with postgraduate studies in Neurosciences and Neurodegeneration of the Faculty of Medicine of AUTH Ioanna Falega completed her studies in the Psychology department of the Aristotle University of Thessaloniki, during which she developed an interest in the field of neuropsychology, as well as clinical psychology. At the same time, she worked voluntarily with people with disabilities, children and the elderly, while she also engaged in research in collaboration with the Neuropsychological laboratory of the Department of Psychology. Currently, she is completing her master's degree, in the field of Neurosciences, at the Department of Medicine of the Aristotle University, while at the same time she collaborates with the Greek Association of Alzheimer's Disease and Related Disorders- Alzheimer Hellas as a psychologist-researcher in the Erasmus+ project entitled "Dementia Right" and the program "Altoida DNS". She also has a collaboration with a Speech Therapy Center in Kymina, Thessaloniki, where she deals with psychoeducation, emotional education and other children's activities and parent counseling. Her dream is to practice the profession of Psychologist in the most creative way, with the aim of giving mental health in Greece the importance it deserves.
