

Fidani Asano

Fidani Asano, lives in Polygyros, Chalkidiki. She has graduated from the psychology department of the University of Ioannina and she has completed an internship at the Alzheimer Hellas day-care center for dementia "Agios Ioannis" as part of the psychology department's undergraduate study program. She was trained to read and write the Braille language, at the Center for Education and Rehabilitation of Blind people in Ioannina. Then she added into her knowledge pack the sign language, which she attended at the Thessaloniki Sign Language Center, where she completed the first cycle of the studies schedule. She is currently a student in the "Special Education and Training" postgraduate program of the University of Nicosia in collaboration with the University of Patras. Closing, today she works as a psychologist for children with typical development and children with disabilities at the «children's center of creative activities» at Polygyros Municipality.
