Kaltsa Maria

Maria Kaltsa is a Postdoctoral Researcher in the area of Psycholinguistics at the Department of Theoretical and Applied Linguistics (School of English) at Aristotle University of Thessaloniki (AUTH). She holds an MPhil in Linguistics from the University of Cambridge, and a PhD from AUTH. She received a Postdoctoral Research Grant on the mental lexicon of bilingual children and the impact of linguistic and cognitive factors on lexical parsing which is co-financed by Greece and the European Union (European Social Fund- ESF) through the Operational Programme «Human Resources Development, Education and Lifelong Learning» in the context of the project "Reinforcement of Postdoctoral Researchers - 2nd Cycle" (MIS-5033021), implemented by the State Scholarships Foundation (IKY) (Award No: 18248 | Project Duration: 12/2019-11/2021). Currently, she is the PI of the Research Project "Linguistic Perspectives on Dementia: an investigation of lexical, syntactic & content complexity in the narratives of Greek speaking patients with Mild Cognitive Impairment and Alzheimer's Disease" (DemLENS) supported by the Hellenic Foundation for Research and Innovation (H.F.R.I.) (Project Number: 98109 | Project Duration: 12/2020-12/2023 | https://demlens.enl.auth.gr/). Her scientific interests involve lexicon, (morpho)syntax, interface phenomena, L1/L2 acquisition, multilingualism, first language attrition, language processing and dementia.
