

## **Apostolia Karabatea**

Dr. Apostolia Karabatea holds both a BSc and a MSc in Physics, but also a PhD in Applied Physics, all from the Aristotle University of Thessaloniki. She is a certified IT Project Manager and also a certified Manager of Educational Units, from Panteion University in Athens. She worked at the Lab of Radiocommunication of Physics Department in AUTH, at “OTE” (Hellenic Organisation of Telecommunication) and T-Mobile (Los Angeles, San Francisco), as a Designer and Task leader. On same time, she has been external partner for the Medical School of AUTH on the field of Hygiene and primary care, but also for the WHO Europe on the training of medical staff regarding COVID-19. She is experienced on preparing proposals for national, European (Horizon) and international projects and also on managing research projects but also pre-commercial procurement projects (PCPs). Since 2021 she works at Gnomon Informatics SA as Consultant and Manager for e-health projects that mostly focus on chronic diseases such as heart failure and auto-immune diseases, while also specific groups of patients such as elderly people.
