

Bakos Christos

I am a high school student in the 2nd Lykeio of Anatolia College, Thessaloniki, Greece. I have participated in and excelled in numerous national and international competitions in Physics and Mathematics. I have received scholarships from CTY Greece and was awarded the "CTY Greece Talent Search Award" for High Honors in Verbal & Quantitative Ability. In 2024, I was accepted into the "Summer High School Academic Program for Engineers (SHAPE)" at Columbia University. Additionally, I was appointed for a summer internship in 2024 at The Broad Institute of MIT and Harvard. I hold Patent No. 1010596/20230100743/18-12-2023 and have submitted two more patents to OBI, No. 2846/29-7-2024 and No. 2847/29-7-2024 respectively. I am a member of the Greek non-governmental environmental organization "The Hellenic Society for the Study and Protection of the Monk Seal" (MOM) and a volunteer with the Greek non-profit, non-governmental humanitarian organization "Mission: Anthropos," where I have participated in the volunteering program "Improving the Life of the Elderly II".
