

Chrysochoou Maria-Stella

My name is Chrysochoou Maria-Stella. I have recently graduated from the Department of Psychology, Aristotle University of Thessaloniki (February 2025). I have worked as a researcher for 1 year at the Research Unit of the University of Macedonia (September 2023- September 2024). Afterwards, I volunteered at the Day Care Centre "Agia Eleni" of the Greek Association of Alzheimer's Disease and Related Disorders (May-June 2024) and later I did my internship at the Boarding House for patients with end-stage dementia of the Greek Association of Alzheimer's Disease (August-October 2024). In this context, I was trained in neuropsychological assessment for patients with MCI or dementia, non-pharmacological interventions, carer support programs and participated in research projects. During the last months (September 2024-January 2025) I participated in a project of the Laboratory of Applied Psychology, Aristotle University of Thessaloniki offering psychological support to university students.
